

MEMORANDUM FOR: Deputy Director for Support

ATTENTION : SSA/DDS

SUBJECT : Transfer of [REDACTED] to  
NE Division, Headquarters

25X1A2g  
25X1A6a

REFERENCE : Memo from Chief, NE Division to DD/S  
via DD/P dtd 24 Jan. 1964, Same Subj

25X1A 1. This is in response to your request that the Office of  
Finance comment on reference memo which contains recommenda-  
tions that would have the effect of reducing the present complement  
of 3 Finance (SF) employees at the [REDACTED] Station to one Finance  
Officer who would continue [REDACTED] 25X1A6a  
25X1A6a  
Station finance activities, but discontinue the regional [REDACTED] 25X1A2g  
functions which would be transferred presumably along with two  
Finance (SF) employees to Headquarters.  
25X1A6a

[REDACTED] 25X1A6a  
25X1A2g agree that it would be feasible to continue the [REDACTED] type of  
25X1A2g financial support from Headquarters. We believe however that the  
final decision as to just how the [REDACTED] function should be  
conducted from Headquarters, and the question as to whether it  
should be placed under the NE Division or under the Office of  
Finance at Headquarters should be deferred pending completion  
of a study now underway concerning the best placement of this  
and related certifying functions, and the availability of space to  
accommodate these activities. We might also point out that the  
[REDACTED] [REDACTED] function is also being transferred to Head-  
quarters, and the WH Division has requested that it be placed  
under the Office of Finance. The AF Division has a similar  
problem of financial support for its field stations which has been

-2-

met by absorbing the accounting functions in the Office of Finance, but providing continuous TDY finance assistance to field stations from both the AF Division and the Office of Finance. We believe it is essential that a consistent policy and procedure be established for the handling of [REDACTED] activities from Headquarters since it appears that the pressure for reducing overseas cover slots may well require the movement of other such activities to Headquarters. In the meanwhile we have no objections to working out an arrangement whereby the [REDACTED] function could be moved to Headquarters intact, physically located in the NE Division and operated from that point, pending establishment of a consistent policy for the operation of all Headquarters [REDACTED] activities.
